DETAILED ACTION

Examiner acknowledges receipt of amendment E filed 06/24/02. New claims 40-58 are pending.

Drawings

The drawings are objected to as failing to comply with 37 CFR 1.84. See copy of Notice of Draftsperson's Patent Drawing Review attached.

Claim Rejections - 35 USC § 112

1. The rejection of claims 22 and 27 under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention is withdrawn because claims 22 and 27 were cancelled by amendment E.
2. New claims 40-58 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 40 is confusing. Specifically the phrase "or esters or at least one...for the said application."

Claim 43 recites the limitation "the basic amount" in line 2. There is insufficient antecedent basis for this limitation in the claim.

Claim 43 is confusing. Specifically, "the basic amount is at least one plant..." is confusing.

Art Unit: 1615

Claim 55 is rejected under 35 U.S.C. 112, first paragraph, as containing subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. The specification does not describe what a cosmetic base is.

Claim Rejections - 35 USC § 103

3. New claims 40-45, 49-51 and 55-58 remain rejected under 35 U.S.C. 103(a) as being unpatentable over JP 404126057.

Applicants agree that the prior art failed to claim any potential use, that the composition of the prior art is directed to “alimentary utility,” and that the examined application is not a soft drink containing sea-water and other ingredients but the examined application is directed to a pharmaceutical hygienic or cosmetic composition containing a mixture of sea-water and basic amino acid in the “natural form or its salt or esters or a plant and/or animal extract or phytoplankton extract for the treatment of an ailment linked to a local allergic or inflammatory symptom” and as such the claimed composition is not obvious over the prior art.

4. Applicant's arguments filed 06/24/02 have been fully considered but they are not persuasive.

a. The claims are directed to a composition comprising seawater and basic amino acid or its salts or esters. Future intended use is not critical in composition claims.

b. Applicants acknowledge that the prior art is a soft drink and that drink may be a health drink. Thus applicants do admit the prior art to have a use.

Art Unit: 1615

c. The comprising language of the generic claims does not exclude ingredients in the composition of the prior art from the instant composition.

d. The treatment method is a mere administration of a composition to a subject and a soft drink is also administered when it is taken.

No claim is allowed.

5. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.

6. The specification has not been checked to the extent necessary to determine the presence of all possible minor errors. Applicants' cooperation is requested in correcting any errors of which applicants may become aware in the specification including the claims.
